

# NEET Prevention

The number of young people not attending school is rising, and those leaving Year 11 without progressing into education, employment or training is reaching crisis levels.

Early, targeted support has never been more crucial.

## Why Seetec?

Our professional careers specialists provide **early and frequent interventions to build confidence, raise aspirations and prevent disengagement**. Evidence shows this increases motivation, improves attainment and supports long-term progression outcomes.

## Our Offer

We work **collaboratively** with schools to design and deliver tailored programmes that meet the needs of your learners.

### Example: 6-Week NEET Prevention Programme

1-2 hours per week. Designed to **build skills, confidence and future-readiness**.

Rooted in the five career development skills outlined by Tupper & Ellis in *The Squiggly Career*, this programme provides structure, guidance and future-focused planning - with progression at its core.

Students also receive access to **CiCi - the award-winning careers chatbot**, providing continuous guidance beyond programme delivery.

**career chat**  
PIONEERING INNOVATION

Week	Focus	Outcome
<b>1</b> Super Strengths	Identify skills and talents	Promote self-awareness and positive identity
<b>2</b> Values	Explore motivation and purpose	Align strengths with meaningful pathways
<b>3</b> Confidence	Build resilience and tackle barriers	Develop self-belief to move forward
<b>4</b> Networks	"People helping people"	Learn to make and use helpful connections
<b>5</b> Future Possibilities	Explore career pathways and labour trends	Future-proof decisions and inspire ambition
<b>6</b> Employer Encounters	Meet real employers and plan next steps	Apply learning to real opportunities

**Flexible Delivery**

**Scalable Support**

**Proven Impact**

Seetec can help you reduce NEET outcomes and **improve the futures of every young person.**
